B. ACCOMPLISHMENTS BY COMPONENTS:

1. Support Staff: Forty-eight requirements were received and processed during the month of June representing a decrease of sixty over the preceding month. One hundred seventy-two projects are assigned and undergoing photo analysis which is an increase of five over the month of May. Nineteen are joint projects working with Army and/or Navy analysts. Nineteen projects were cancelled for lack of coverage and administrative reasons.

A total of 169 requests for reproduction were received, checked, assigned priorities and submitted to the photo lab. Over 5,000 documents were received, evaluated and distributed to division components.

In addition to the time spent on routine functions, much time was devoted to numerous meetings and consultations in coordinating activities with Agency and non-Agency components.

2. Special Projects Branch: Most of the effort was spent on the production of miscellaneous working papers, special graphics, and reports, in support of high priority requirements levied on the Division. The Branch completed three reports for DD/P, two informal reports for OCI, three reports which satisfied self initiated requirements and one mosaic. Work continues on 58 projects most of which will result in the production of special working papers.

3. Geographic Branch: The Branch devoted 70% of its project time on requirements for the ORR Economic Area, 19% for DD/P, eight percent for the DD/I and three percent for the ORR Geographic Area. A total of eight reports (six of which are joint reports) and four informal reports were completed during the month. Considerable time was spent on two large area studies for DD/P. Planning continues and work is in progress on city plans. The Branch is working on 45 projects.

4. Industrial Branch: Highlight of Branch activity during the month was the consultant meeting conducted in cooperation with OSI. The photo interpretation and graphic illustrations presented at this meeting were very well received. A successful and profitable trip was made by Messrs. 25X1A9a [redacted] to a number of installations in the western part of the United States. The Branch completed four reports, and work began on nine new projects. Work is continuing on 30 projects.

5. Technical Intelligence Branch: The Branch devoted most of its effort in support of top priority projects requiring metrical analysis, computer programming, and the production of graphic materials. One report, 10 working papers and 33 graphics were completed during the month. Study of
